

Understanding Ansell Logos / Symbols Chart

Revision 1.0

Product information

Information tag

The chart displays various information tags for Ansell gloves. On the left, there are four examples of size tags: XS (pink), S (yellow), M (light pink), and XL (teal). Each size tag is divided into three horizontal sections: the top section for the size, the middle section for 'POWDERED', and the bottom section for 'LATEX'. To the right, a larger purple tag with the size 'L' is shown with callouts: 'Color coding (only examination gloves dispensers)' points to the purple background; 'Size' points to the 'L'; 'Presence / absence of powder' points to the 'POWDERED' section; and 'Material' points to the 'LATEX' section.

This product is made from synthetic materials with no added Natural Rubber Latex

This product contains natural rubber latex which can cause allergic reactions, including anaphylactic responses

Manufacturing information

Use by / expiry date

Lot number / batch code

Sterile, sterilized by (gamma) radiation

Manufacturer

Date of manufacture

Packaging information
